

# MAT 21C - Calculus Resources

**TA: Sam Fleischer (Sam, Mr. Fleischer)**

## Teaching Assistants

The MAT 21C Teaching Assistants are your first resource for Calculus questions. All TAs are available for help, not just me.

## Calculus Room

The Calculus Room is a resource for all calculus students to receive help, not just just this class. It is also convenient if you are unable to make it to office hours or if you need immediate help and no one is holding office hours at that time. The Calculus Room for MAT 21ABC is MSB 1118, and it is open M-F 1-7p.

## Your Peers

The *BEST* way to learn math, and also to get answers to your questions quickly, is to have a friend in the class to study with. Learn your neighbors' names, exchange contact information, plan study sessions. You will find learning math much easier if you are learning with someone else. You will probably enjoy math, and college life, much more when you have someone to discuss problems with. Seriously, make this a priority now before the quarter gets too busy (it always does).
